- VIII. Opananie Park Orange Trail – A Vote to make the following Recommendations: Add park map trail monument(s) at two locations connecting with Bryn Coed Preserve (with the Red trail by the botanical sanctuary/at the Blue trail west of Bryn Coed Lane); To affix orange trail markers at pre-determined locations along the Orange Trail; To have Parks & Recreation committee member(s) present with Public Works when demarking trail marker locations; To consider for safety reasons the exposed electricity pole next to the Orange trail; Because the Orange trail loop is not connected from between the picnic area trail marker up to the trail's marker located along the driveway – To consider demarking that separation as a trail, on the ground and with an additional marker/post, to properly connect the Orange trail between those locations.
